

COLLEGE OF MEDICINE
THE UNIVERSITY OF TOLEDO

Non-Tenure Research Track Junior Faculty Position Immunology

The Department of Medical Microbiology and Immunology at the University of Toledo College of Medicine is seeking a non-tenure, research-track junior faculty member at the level of Senior Postdoctoral Fellow. Candidates must hold a Ph.D., M.D., or equivalent degrees and have at least two years of relevant postdoctoral experience (Postdoctoral Fellow or Assistant Professor) in skin immunology. A successful candidate will be expected to: 1) design, execute, and direct projects of a research lab; 2) execute laboratory experiments; 3) establish test controls, criteria, and research standards; 4) design and oversee the construction of equipment; 5) and develop and test experimental designs and analytical methods as well as make recommendations for their modification and/or methods. Applications should include: a) a CV, b) a brief summary of research interests, past accomplishments, and future plans, and c) names and addresses of three references. All materials should be sent electronically to: Diane.Ammons@utoledo.edu. Applications are continuously reviewed. The University of Toledo is committed to diversity and equal opportunity. Applications from women and minority candidates are strongly encouraged.
